

BOOKING TEST CASES (HINDI)

Date: 2026-05-09

Purpose: Booking flow me kya-kya cheezein test karni chahiye (conditions + expected results). Is document me API endpoint ka mention nahi hai; sirf rules/conditions cover kiye gaye hain: tenant scope, class status/time rules, payment modes (free/wallet/gateway/cash/package), capacity/waitlist, aur layout seats.

LEGEND / PRIORITY

- P0 = business critical (data integrity / money / capacity).
- P1 = important (policy/policies + common edge cases).
- P2 = nice-to-have (rare edge cases / UX polish).
- Rule: Validation fail ho to booking create nahi honi chahiye; aur side-effects (wallet debit / package sessions) bhi mutate nahi hone chahiye.

A) VALIDATION RULES (BOOKING SE PEHLE)

BKG-V-001 [P0] Happy path (basic) â class bookable

Shartein (conditions): Class active/published ho, future start ho, user same tenant ka ho, capacity available ho, aur payment_mode allowed ho.

Steps (kaise test karein): Normal booking attempt karein (correct payment_mode + required fields).

Expected (kya result hona chahiye): Booking allowed; status 'confirmed' ya 'pending' (auto-confirm setting ke hisaab se).

BKG-V-002 [P0] Reject â class already started

Shartein (conditions): Class start_time tenant timezone ke hisaab se already start ho chuka ho.

Steps (kaise test karein): Booking try karein (any payment_mode).

Expected (kya result hona chahiye): Booking reject; clear message 'Class has already started' type; no booking created.

BKG-V-003 [P1] Reject â booking cutoff time crossed

Shartein (conditions): Config me booking_cutoff_minutes set ho; ab time cutoff se aage nikal gaya ho (starts_at ke close).

Steps (kaise test karein): Booking try karein when now > starts_at - cutoff.

Expected (kya result hona chahiye): Booking reject; message cutoff minutes mention kare; no booking created.

BKG-V-004 [P0] Reject â payment_mode allowed nahi

Shartein (conditions): Paid class par free select karna; free class par wallet/gateway select karna; package-only class par package ke alawa kuch aur select karna.

Steps (kaise test karein): Wrong payment_mode ke saath booking try karein.

Expected (kya result hona chahiye): Booking reject; user ko allowed payment modes ka hint mile; no booking created.

BKG-V-005 [P0] Reject â duplicate booking (same class)

Shartein (conditions): Same user ke paas already active booking ho: confirmed / waiting / pending / pending_payment.

Steps (kaise test karein): Same class ko dubara book karne ki koshish karein.

Expected (kya result hona chahiye): Booking reject; duplicate prevent ho; no extra booking row.

BKG-V-006 [P0] Capacity full â waitlist allowed case

Shartein (conditions): Capacity reached ho; waiting list enabled ho; max_waitings configured ho aur waiting list full na ho.

Steps (kaise test karein): Class full hone par booking try karein.

Expected (kya result hona chahiye): User waitlist me add ho sake; waiting_position set ho (next number).

BKG-V-007 [P0] Capacity full â waitlist disabled/full â reject

Shartein (conditions): Capacity reached ho; ya to waiting list disabled ho, ya waiting list already full ho.

Steps (kaise test karein): Booking try karein.

Expected (kya result hona chahiye): Booking reject; message me 'Class is full' + reason aaye; no booking created.

BKG-V-008 [P0] Layout class â seat required (when real slot available)

Shartein (conditions): Class me layout configured ho (seats); capacity available ho.

Steps (kaise test karein): Seat select kiye bina booking try karein.

Expected (kya result hona chahiye): Booking reject; seat required message; no booking created.

BKG-V-009 [P1] Layout class â waitlist booking me seat required nahi

Shartein (conditions): Class full ho + waitlist allowed ho + layout configured ho.

Steps (kaise test karein): Seat select kiye bina waitlist booking try karein.

Expected (kya result hona chahiye): Waitlist allow ho; seat selection defer ho.

BKG-V-010 [P0] Reject â seat already taken / unavailable

Shartein (conditions): Layout class ho; chosen seat already booked/unavailable ho, ya kisi active booking ne same seat le rakhi ho.

Steps (kaise test karein): Taken seat ke saath booking try karein.

Expected (kya result hona chahiye): Booking reject; message 'seat already taken/not available'.

BKG-V-011 [P0] Reject â wallet insufficient (paid class)

Shartein (conditions): Paid class ho; user.wallet < price ho; pay-per-class enabled ho.

Steps (kaise test karein): Wallet payment select karke booking try karein.

Expected (kya result hona chahiye): Booking reject; clear message 'Insufficient wallet balance'.

BKG-V-012 [P0] Reject â package booking invalid (sale missing/invalid/sessions 0)

Shartein (conditions): Package mode enabled ho; valid sale id required ho; sessions_remaining >= 1 hona chahiye.

Steps (kaise test karein): Package payment ke saath (a) missing/invalid sale id, (b) sessions_remaining=0 ke cases try karein.

Expected (kya result hona chahiye): Booking reject; user ko payment selection/change method ka prompt; no booking created.

BKG-V-013 [P1] Reject â gender restriction

Shartein (conditions): Class gender restricted (male/female) ho; user gender mismatch ho ya unset ho.

Steps (kaise test karein): Booking try karein.

Expected (kya result hona chahiye): Booking reject; restriction message show ho; no booking created.

=====

B) BOOKING CREATE (SIDE-EFFECTS KE SAATH)

=====

BKG-C-001 [P0] Create booking success (confirmed/pending)

Shartein (conditions): Validations pass; capacity available; payment_mode allowed.

Steps (kaise test karein): Booking create karein.

Expected (kya result hona chahiye): Booking create ho; status confirmed ya pending; booking_counts expected tarike se update ho.

BKG-C-002 [P0] Gateway booking â status pending_payment

Shartein (conditions): Gateway mode enabled ho; payment_mode gateway allowed ho; slot available ho.

Steps (kaise test karein): Gateway payment ke saath booking create karein.
Expected (kya result hona chahiye): Booking status pending_payment ho; user ko payment flow me le jaye; duplicate booking na bane.

BKG-C-003 [P0] Wallet booking â upfront wallet debit

Shartain (conditions): Paid class; wallet >= price; payment_mode wallet.

Steps (kaise test karein): Booking create karein.

Expected (kya result hona chahiye): Wallet amount price se reduce ho; booking create ho; refund/cancel scenarios ke liye audit marker present ho (notes marker).

BKG-C-004 [P0] Package booking â session deduct

Shartain (conditions): Valid package sale ho; sessions_remaining>=1; payment_mode package.

Steps (kaise test karein): Booking create karein.

Expected (kya result hona chahiye): sessions_remaining 1 se decrease ho; booking me sessions_deducted=1 set ho.

BKG-C-005 [P0] Reject create â validation fail cases

Shartain (conditions): Any failing case: wrong payment_mode / seat missing / duplicate / capacity full without waitlist etc.

Steps (kaise test karein): Direct booking create try karein.

Expected (kya result hona chahiye): Booking create nahi ho; wallet debit / sessions deduct jaise side-effects nahi hone chahiye.

BKG-C-006 [P0] Layout booking â seat status booked

Shartain (conditions): Layout class; seat_id provided; booking occupying status (confirmed/pending/pending_payment).

Steps (kaise test karein): Booking create karein.

Expected (kya result hona chahiye): Seat status 'booked' ho; same seat kisi aur active booking ko na mile.

=====

C) WAITLIST

=====

BKG-W-001 [P0] Waitlist add (jab class full ho)

Shartain (conditions): Capacity full ho; waitlist enabled ho; max_waitings exceed na ho.

Steps (kaise test karein): Waitlist booking try karein.

Expected (kya result hona chahiye): Status waiting set ho; waiting_position correct ho.

BKG-W-002 [P1] Waitlist reject (jab slot available ho)

Shartain (conditions): Capacity available ho (slot free ho).

Steps (kaise test karein): Waitlist attempt karein.

Expected (kya result hona chahiye): Waitlist reject ho; user ko regular booking karne ko bola jaye.

BKG-W-003 [P0] Waitlist reject â waiting list disabled

Shartain (conditions): Class full ho, lekin waiting list feature disabled ho (gym setting / class policy).

Steps (kaise test karein): Class full hone par waitlist join karne ki koshish karein.

Expected (kya result hona chahiye): Reject ho; clear message aaye; waiting booking create na ho.

BKG-W-004 [P1] Waitlist reject â max_waitings set nahi ya 0

Shartain (conditions): Class full ho; waitlist enabled ho sakti hai, lekin max_waitings 0/empty ho.

Steps (kaise test karein): Waitlist join try karein.

Expected (kya result hona chahiye): Reject ho; 'waiting list not configured' type message aaye; waiting booking create na ho.

BKG-W-005 [P0] Waitlist reject â waitlist full

Shartain (conditions): Class full ho; max_waitings configured ho; already max_waitings members

waiting me ho.

Steps (kaise test karein): New user se waitlist join try karein.

Expected (kya result hona chahiye): Reject ho; 'waiting list is full' type message; waiting_position increment na ho.

BKG-W-006 [P0] Waitlist not allowed â one-to-one class (capacity = 1)

Shartein (conditions): One-to-one class ho (capacity=1) aur already kisi aur ka booking occupy kar raha ho.

Steps (kaise test karein): Second user se booking/waitlist try karein.

Expected (kya result hona chahiye): Reject ho; one-to-one me waitlist allow na ho; koi waiting booking create na ho.

BKG-W-007 [P0] Waitlist duplicate prevent â same user already waiting

Shartein (conditions): User already same class ke waitlist me ho (status waiting).

Steps (kaise test karein): Same user se dobara waitlist join try karein.

Expected (kya result hona chahiye): Reject ho; duplicate waiting booking create na ho.

BKG-W-008 [P1] Waitlist order â promotion oldest waiting ko mile

Shartein (conditions): Waitlist me multiple members ho; unka order (booked_at/created_at) different ho.

Steps (kaise test karein): Confirmed booking cancel karke slot free karein.

Expected (kya result hona chahiye): Sabse purana waiting user promote ho; baaki users ka order consistent rahe.

BKG-W-009 [P0] Promotion + gateway â waiting se promote hone par pending_payment

Shartein (conditions): Waitlist me user ka payment_mode gateway ho; slot free ho jaye.

Steps (kaise test karein): Slot free hote hi (cancel confirmed) promotion observe karein.

Expected (kya result hona chahiye): Promoted booking ka status pending_payment ho; user ko payment complete karna pade.

BKG-W-010 [P1] Layout class + waitlist â seat selection defer hoti hai

Shartein (conditions): Layout class full ho; user waitlist me join kare; seat_id na diya ho.

Steps (kaise test karein): Waitlist join karein without seat selection; phir slot free karke promotion trigger karein.

Expected (kya result hona chahiye): Waitlist join ho jaye; promotion ke time seat selection/assignment ka expected behavior define ho (no crash, no duplicate seat).

=====

D) CANCEL + PROMOTION (WAITLIST SE SLOT FILL)

=====

BKG-X-001 [P0] Cancel confirmed â next waiting promote

Shartein (conditions): Same class me (a) ek confirmed booking ho (b) kam se kam 1 waiting booking ho.

Steps (kaise test karein): Confirmed booking cancel karein.

Expected (kya result hona chahiye): booking_counts decrement ho; oldest waiting promote ho (confirmed/pending ya gateway case me pending_payment); waiting_position clear ho.

BKG-X-002 [P0] Package booking cancel â sessions restore

Shartein (conditions): Package booking me sessions_deducted=1 ho aur sale linked ho.

Steps (kaise test karein): Cancel karein.

Expected (kya result hona chahiye): sessions_remaining +1 ho; booking cancelled ho.

BKG-X-003 [P1] Cancel blocked â cutoff ke baad

Shartein (conditions): allow_late_cancellations=false ho; cancellation_window_hours configured ho; cutoff cross ho chuka ho.

Steps (kaise test karein): Cancel try karein.

Expected (kya result hona chahiye): Cancel reject ho; policy message mile; booking status unchanged

rahe.

BKG-X-004 [P1] Cancel â seat free (if no one else holds it)

Shartein (conditions): Layout class; booking me seat_id ho; same seat kisi aur active booking me na ho.

Steps (kaise test karein): Cancel karein.

Expected (kya result hona chahiye): Seat 'available' ho jaye; seat dubara book ho sake.

BKG-X-005 [P1] Already cancelled/completed booking ko cancel nahi kar sakte

Shartein (conditions): Booking status cancelled ya completed ho.

Steps (kaise test karein): Cancel try karein.

Expected (kya result hona chahiye): Reject ho; clear message mile.

=====

E) MEMBER BOOKINGS LIST (UPCOMING/PAST/WAITING)

=====

BKG-L-001 [P1] Waiting bookings sirf waiting bucket me

Shartein (conditions): Waiting + confirmed/past bookings exist karein.

Steps (kaise test karein): Bookings list screen/feature me verify karein.

Expected (kya result hona chahiye): Waiting status wale bookings waiting me; baaki upcoming/past me; can_cancel logic correct.

BKG-L-002 [P1] Cancel deadline aur can_cancel calculation correct

Shartein (conditions): cancellation_window_hours set ho; class future me ho.

Steps (kaise test karein): Cancel deadline ko starts_at - window se compare karein; can_cancel behavior verify karein.

Expected (kya result hona chahiye): cancel_deadline correct ho; allow_late_cancellations/cutoff rules ke saath consistent ho.

=====

F) SECURITY / ISOLATION (MUST-HAVE)

=====

BKG-S-001 [P0] User A dusre user ki booking cancel/view na kar sake (IDOR)

Shartein (conditions): User A aur User B exist karein; booking B ki ho.

Steps (kaise test karein): A se B ki booking ko cancel/view try karein.

Expected (kya result hona chahiye): Access deny (404/403); koi sensitive data leak na ho.

BKG-S-002 [P0] Cross-tenant class booking blocked (trainer/program mismatch)

Shartein (conditions): Class ka trainer ya training programme kisi aur tenant ka ho.

Steps (kaise test karein): Current tenant user se booking try karein.

Expected (kya result hona chahiye): Booking blocked; 'class not in your gym' type failure; booking create na ho.

=====

QUICK EXECUTION CHECKLIST (FAST)

=====

- P0 pehle run karein: payment rules, capacity/waitlist, seat locking, wallet/package side-effects, cancelâ promotion.

- Har failure me confirm karein: booking create nahi hui, aur wallet debit / package sessions change nahi huye.

- Har success me confirm karein: booking_counts, seat status, aur bookings list me correct status.
